InterMedical™ Insurance

› Yes, it can happen to you...

Every year, people traveling to foreign countries may require emergency medical treatment, hospitalization or medical evacuation back to their home country. Doctors, clinics, and hospitals may charge you prices comparable to those in the U.S. However, when traveling outside of your home country, obtaining qualified medical care may be difficult. If emergency treatment or medical evacuation is necessary, the cost to you can become very expensive in a hurry.

› “But I have health insurance...”

Your present health care insurance may not pay for medical expenses incurred while traveling. Medicare and Medicare supplements may offer little or no protection outside the U.S. and its possessions and territories.

And while having health insurance may help at home, many medical policies do not pay for medical evacuation. An air ambulance to North America can cost upwards of \$20,000 for one-way travel alone.

Source: On-Call International

› There is a beneficial solution!

InterMedical Insurance is designed specifically for people who are traveling **outside the U.S. and outside their home country**. If you are injured or become ill while on your trip, you can rely on InterMedical to assist you with your covered medical expenses. Major expenses can be paid directly to the medical provider or evacuation/repatriation transportation service.

› Who is eligible for InterMedical?

InterMedical provides Accident and Sickness Medical Coverage, Travel Assistance, and Accidental Death and Dismemberment benefits to those traveling **outside the U.S. and outside their home country**. Coverage is available for you, a second adult, unmarried dependent children, or children traveling alone. The minimum period of coverage that can be purchased is 5 days, for up to 364 days.

› Why should I choose InterMedical?

Travel Insurance Services takes the guesswork out of insurance for those traveling outside the United States. InterMedical is a plan designed specifically to meet the needs of international travelers. And InterMedical meets the Schengen Visa requirements for many travelers. This level of travel protection is ideal for business and leisure travelers, tourists, holiday travelers, church or missionary travelers, or expatriates who are newly moved to another country.

› Why do I need international medical insurance?

Private, nationalized, or government sponsored health plans rarely provide adequate medical coverage for injuries or illnesses which occur while traveling. Most travelers are unaware of how expensive medical care is, and may be unprepared for the bills. Additionally, medical facilities may not recognize insurance provided by a foreign insurance company and could deny services or demand up-front payment for treatment.

› Cancellations and Refunds

Cancellations and Refunds of an insurance policy can be considered when a written request is received prior to the Effective Date. After the Effective Date, the premium is considered fully earned and non-refundable. Partial refunds are not available. All refunds are subject to a \$25 processing fee. Please mail, fax, or email a refund request to Travel Insurance Services.

› About Travel Insurance Services

Since 1973, Travel Insurance Services has developed insurance plans for travelers around the world. Thousands purchase their travel insurance policies from Travel Insurance Services every year for coverage while away from home.
